Community Values Drive Design

A value is something (as a principle or quality) intrinsically valuable or desirable. It involves larger concepts that are subjective aspects that support people’s well-being.

Values we have heard from the community that are important and that we want you to build on or eliminate for how you see Papago Park include:

• Connectivity
• Security
• Access to open space and trails

• Sustainable Design

• Please give me your thoughts on additional values that you feel this park has:
Visioning Workshop

A Vision describes what you want to be known for and, a Mission says how do we get there.

Example vision statement from Golden Gate National Recreation Area:

“The vision of the Golden Gate National Parks (Golden Gate National Recreation Area, Ft. Point national Historic Site, and Muir Woods national Monument) is to preserve and enhance the natural environment and cultural resources of these coastal lands north and south of the Golden Gate for the inspiration, education and recreation of people today, and for the future generations”
Vision Statement Examples

Santa Monica Mountains National Recreation Area Vision Statement:

“Santa Monica Mountains National Recreation Area will protect and enhance, on a sustainable basis, one of the world’s last remaining examples of a Mediterranean ecosystem and will maintain the area’s unique natural, cultural, and scenic resources, unimpaired for future generations. Santa Monica Mountains National Recreation Area will provide and interlinking system of parklands and open spaces that offer compatible recreation and education opportunities that are accessible to a diverse public.”
